

Instant Live AI Pandit for Hindu Families Worldwide

Smart Murti gives Hindu families trusted spiritual guidance and live family puja through a multilingual AI Pandit.

Urgent guidance

Live family puja

WhatsApp re-entry

Trusted spiritual access is broken for diaspora families

Geography, time zones, language, and trust turn sacred moments into coordination work.

Current tools miss the family ritual job

Local pandits, YouTube streams, and astrology apps each solve only one piece. Smart Murti creates the shared ritual layer.

SMART MURTI

A trusted family pandit, now instant, affordable, and global

Multilingual guidance, context-aware responses, and WhatsApp re-entry make the first session feel human.

Real-time voice AI finally meets a real diaspora behavior

The behavior exists. NRI families already coordinate rituals across borders. The platform does not.

SMART MURTI

Start with urgent 1:1 Smart Pandit guidance

The wedge is immediate pain: health, protection, peace, family stress, or relationship guidance.

Live cross-border family puja becomes the premium moment

Once trust is established, the relationship upgrades to shared family rituals.

A competitor can copy an AI bot

They cannot copy a family's spiritual memory and accumulated trust.

The diaspora family organizer

The buyer already values tradition, already spends money on rituals, and already feels the manual coordination pain.

Wallet sessions compound into premium family usage

Urgent need becomes WhatsApp re-entry, family invite, and live family puja.

Product foundations are live

Now the investor metrics need to be locked: families reached, paid sessions, repeat usage, family members per puja.

High-margin digital services with premium ritual upside

Wallet-first guidance creates cash flow. Live family puja creates the premium ARPU moment.

SMART MURTI

A product-led team building the faith-tech operating layer

Naman leads product and AI. Praveen leads finance and operations.

SMART MURTI

The spiritual operating layer for Hindu families globally

A trusted family pandit, now instant, affordable, and global.
